Career Objective

Motivated and enthusiastic Computer Science student specializing in Artificial Intelligence, currently building strong foundations in Java and Data Structures & Algorithms. Seeking an opportunity to apply my technical skills, learn from real-world projects, and contribute effectively to organizational growth.

Education

Technocrats Institute of Technology – Excellence

Bachelor of Technology (B.Tech) in Computer Science Engineering (AI)

Semester: 4th (2nd Year)

CGPA: 6.8

Technical Skills

- Programming Language: Java (Learning), Basics of DSA
 - Concepts: Problem Solving, Data Structures (beginner level)
-

Soft Skills

- Teamwork
 - Communication Skills
 - Quick Learner
 - Adaptability
-

Projects

- Currently working on improving problem-solving skills through Data Structures and Algorithms in Java
 - Worked on OSINT Tool for an hackathon at GLA University, Mathura U.P.
-

Certifications

- Certification of GENERATIVE AI by Google Cloud
 - Certification of AGENTIC AI by Saumya Singh
-

Achievements

Languages Known

- English
 - Hindi
-
